We've arrived at the final month of the 2021-2022 school year and, as always, are winding down in some areas while revving up in others. Classes are completing their final course units and will begin reviewing and preparing for final exams, while field trips and final activities will be run over the next few weeks. Although the school year was not a one-hundred-percent return to normal, most academic and extracurricular programs were able to run in a more regular fashion, and we were not required to have students learn from home. We are also excited to host a full graduation ceremony this year, the first since 2019. Looking back at this school year, I recognize it had its ups and downs, but has been a good one. I want to thank the students, staff, parents, and community members for contributing to our successful school year. Have a great summer!
